Bring the Power of Imaging to Your Operations

Many financial institutions are already benefiting from the efficiencies of image processing. With the onset of the Check 21 Act, the benefits are more relevant than ever.

ImageLinks' Proof of Deposit will bring the power of imaging to your check processing operations:

- CAR/LAR locates, reads, and captures the check amounts
- Reliable Magnetic MICR Code Line Capture
- Immediate Availability of Images for electronic adjustments and balancing
- Simultaneous Processing at Multiple Stations
- Intuitive system provides "checks and balances"
- Reject Re-entry With Images allows the operator to view the item while quickly correcting any information
- Power Encode verifies and encodes amounts on matching transit items, even if presented out of sequence

And You'll Reap the Benefits

Check imaging provides significant advantages over cumbersome, traditional methods.

- Eliminates the labor-intensive "read and key" of each check
- Maximizes processing speed
- Does away with incorrect manual entries or filing errors
- Reduces paper handling
- Eliminates the need for manual sorting
- Reduces out of balance situations.

Powerful Banking Software

Reliable — Flexible — Scalable

Increase Your Operational Efficiencies

Proof of Deposit will improve your productivity and efficiency. Intuitive and easy to learn, this product was designed to streamline your operations.

- Intuitive GUI Interface assists the operator with many tasks
- Color-coded debits, credits, and rejects allow easy identification
- Balanced and unbalanced transactions are clearly defined
- Customizable “Hot Keys” for quick insertion of frequently used information
- Print or view single items or complete transactions
- Robust search feature lets you quickly pull up the correct item.

Gain Additional Cost Savings with Imaging

If migrating from a traditional system, there are additional cost savings, including:

- Microfilm cost is eliminated, since images can be stored on hard drives or other storage device
- Microfilm processing cost is eliminated, as well as the normal wait time to process the film
- Reduced postage charges, since the physical checks no longer have to be returned to the customer
- Floor space savings, since the physical items no longer have to be stored.

Proof of Deposit

Realize Significant Benefits with Proof of Deposit

- Faster training — your proofing clerks will be trained in weeks as opposed to months
- Throughput increases — processing with images dramatically increases processing speed
- Less required equipment — you purchase less expensive PCs rather than additional proof machines.

Improve Your Competitive Position

To meet today’s challenges and stay competitive, it’s very important that financial institutions choose wisely.

We can provide you with a solid, comprehensive solution with proven results for today and an enduring choice for the future.
